DETAILED ACTION

Receipt Acknowledgement

1. Receipt is acknowledged of the Amendment filed on 17th of March 2004. Claim 1 has been amended; no claim has been canceled; and no claim has been newly added since the RCE Non-Final Office Action was mailed on 17th of December 2003. Currently, claims 1, 2, 5 and 9 are pending in this application.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1, 2, 5 and 9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claim 1 recites the subject matter "the devices" in line 9. However, the claim 1 recites several different subject matters of "devices", such that "a plurality of devices" in line 2, "devices" in line 8, and "the identified devices" in line 9. Therefore, it fails to clearly point out which one of the subject matters "a plurality of devices" in line 2, "devices" in line 8, and "the identified devices" in line 9 is the antecedent basis of the subject matter "the devices" in line 9, and then it makes the claim 1 be indefinite. Therefore, the term "the devices" could be considered as --the identified devices-- since it is not clearly pointed out in the claims.

Allowable Subject Matter

4. Claims 1, 2, 5 and 9 would be allowable if rewritten or amended to overcome the claims 1, 2, 5 and 9 rejection under 35 U.S.C. 112, second paragraph, set forth in this Office action, Paragraph 3.

5. The following is a statement of reasons for the indication of allowable subject matter:

The limitations of claim 1 are deemed allowable over the prior art of record as the prior art fails to teach or suggest that the identified devices having a right to access the related registers are allowed access to the digital connection between the first arbitrary device and the second arbitrary device. Furthermore, the Applicants' arguments in the Response filed on 17th of March 2004, pages 4-6 are persuasive regard patentability of the invention as disclosed in the claims.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
